[EPA Comments Amend 11 Supplement No.1 and2 05.04.17.pdf](#)

Dear Mr. Brown,

The US Environmental Protection Agency (EPA) has reviewed ARC's On-Property Focused Remedial Investigation Work Plan Amendment No. 11 Supplement No. 1 and Supplement No. 2- Task Sampling and Analysis Plan for Investigation of Ponding near Leviathan Creek, Leviathan Mine Site, Alpine County, California, dated April 13, 2017 and April 19, 2017. This work was submitted to EPA pursuant to Administrative Order for Remedial Investigation and Feasibility Study, Leviathan Mine, Alpine County, California (CERCLA Docket No. 2008-18, June 23, 2008).

Please see our EPA comments attached.

EPA approves ARC's request for this additional work, and to continue surface water/groundwater interaction monitoring and sampling during the 2017 field season subject to the requests in the attached letter. Please collect and analyze for field parameters and laboratory analytes per the previously approved Amendment No. 11 TSAP.

ARC shall include and fully assess all 2017 Amendment 11 results in the Site Characterization report due to EPA on December 31, 2017. This will provide for identifying whether additional sampling is recommended to close any data gaps to prepare the RI report due to EPA on June 30, 2018.

If you have any questions, please feel free to contact me at (415) 972-3003 or deschambault.lynda@epa.gov
